Survey of projects open sourced by Baidu, Alibaba, and Tencent

Dear software professional:

Our research group at Zhejiang University is conducting a research. The research aims at understanding practitioners' perceptions and practices of projects open sourced by Baidu, Alibaba, and Tencent (BAT) in China.

Therefore, we choose BAT to perform this study. For that you are a contributor or an owner of BAT open source projects, we kindly ask you to fill in the following questionnaire. Your responses will help us better understand the developers' perceptions of open source projects, the internationalization effort, and the maintenance status of projects open sourced by BAT. Therefore, it can give some guidance to you and your company to have better development in the open source domain.

The survey is anonymous, and will take approximately 10 minutes. In this process, no personal information is collected.

Thank you!

Junxiao Han
Zhejiang University

Please contact junxiaohan@zju.edu.cn if you have any questions.

Part One. Demographics

1. Do you work as a company employee (including intern, outsourcing employees) or a volunteer contributor for the open source projects in GitHub? [单选题] *

- ☐ Company employee
☐ Volunteer contributor

2. Which of the following roles best describe your software engineering experience (multiple choice OK)? With how many years of experience (decimals OK)? [多选题] *

- ☐ Frontend Development _____ *
- ☐ Backend Development _____ *
- ☐ Software Testing _____ *
- ☐ Project Management _____ *
- ☐ Other (Please enter an 'other' value for this selection) _____ *

3. What is the primary programming language used in your development process? [填空题] *

4. Where is your current country of residence? [填空题] *

Part Two. Survey to open source projects

5. What is your attitude for open source software practices of Chinese technology companies? [单选题] *

- ☐ Positive
☐ Neutral
☐ Negative

6. Please describe the reasons for selecting 'Negative': [填空题] *

7. What is the motivation and expected impact for open sourcing software projects in companies? [填空题] *

8. Have you considered internationalization in your current projects?[单选题] *

- ☐ Yes
- ☐ No
